Cyber Security Panel

Interactive panel discussion with leading CISOs in Western New York gathered to discuss the evolving role of the CISO and the important part project management plays in addressing cyber security risks.

Peter Jabrucki

MBA, CISSP, CIPP, CCSFP
Chief Information Security Officer @ Independent Health

Jeremy Walczak

MBA, CIPP, CCSFP, CISSP
Vice President of Information Technology Security & Chief Information Security Officer @ Catholic Health System

Kevin Gilbert

Chief Information Security Officer IT Risk & Information Security @ Kaleida Health

Peter Jabrucki serves as the Chief Information Security Officer at Independent Health. Peter is responsible for securing and protecting Independent Health members' protected health information and

personally identifiable information, as well as the company's proprietary data. He leads and directs both the company-wide program and individual efforts to ensure the confidentiality, integrity and availability of member and company information.

Peter holds a bachelor degree in chemical engineering, and masters of business administration in information systems from the State University of New York at Buffalo. He is a Certified Information Systems Security Professional (CISSP) and a Certified Information Privacy Professional (CIPP). He is also a HITRUST Certified Common Security Framework Practitioner (CCSFP). Peter resides with his family in Clarence, NY.

Jeremy Walczak is the Vice President of Information Technology Security & Chief Information Security Officer at Catholic Health System. Jeremy is a veteran information technology professional with nearly two decades of experience across multiple industries. Jeremy is a Certified

Information Privacy Professional (CIPP/U.S.) and a HITRUST Certified Common Security Framework Practitioner (CCSFP). He is also a Certified Information Systems Security Professional (CISSP). A graduate of the State University of New York at Buffalo, he earned his Masters of Business Administration from the University of Dayton (OH). Jeremy is a frequent guest lecturer on security related issues and has addressed audiences at the University of Buffalo, Rochester Institute of Technology, and IBM. Walczak resides with his family in Williamsville, NY.

Kevin Gilbert is Chief Information Security Officer at Kaleida Health, providing strategic direction over Enterprise Security. As CISO, Kevin oversees an end-to-end view of security for the organization. In this role, he manages the identification and remediation of information technology and enterprise risks. Kevin is also responsible for effectively identifying, responding to and mitigating computer security incidents impacting the organization, employees, clinician and patients. His team manages the security technology that safeguards the organization's information assets from cyber security attacks. In addition to Information Security and Risk, he provides a comprehensive governance structure pertaining to security standards, processes and threats across organization's various security disciplines, including Information, Cyber Security and Physical Security. Kevin has over 17 years of experience in cyber security, physical security, fraud, and risk management. He has held senior roles in both the private sector and federal government.

Leading Agile Projects with Influence vs Power

General Dwight Eisenhower once said, "It is easier to pull a string than to push it." Some experts call it servant leadership. However you describe this approach it will always result in more productive, higher performing teams when a leader works from a position of influence rather than power. During this session, attendees will learn from Ted Kallman about a simple framework that helps facilitate this approach. Business and non-profit case studies are from his newly released book "Flow: Getting Everyone Moving in the Right Direction ... and Loving it".

Ted Kallman

FCT, PMI-ACP, PMP, CSM, CSPO, CSP
CEO of TIBA-USA, Enterprise Agile and Executive Coach

As a CEO of TIBA-USA, a Project Management training and consulting company, and an Enterprise Agile and Executive Coach, Ted Kallman helps organizations in the common-sense adoption of Flow and lean-agile methods to increase project and organization effectiveness and value. Ted is a well-known Keynote speaker and has co-authored several best-selling books on agile. In 2015, Ted co-

authored a book with Jeff Tobe "Project Management Professionals are Coloring Outside the Lines" that is focused on creativity for Project Managers. He is the founder of Agile West MI and currently serves as Past President of the Western Michigan Chapter of the Project Management Institute.

Ted has worked as a CEO, COO, CMO, and PMO in Europe and the US. His projects have included; Manufacturing, Telecom, Software Development, Marketing, CRM, PMO creation and Agile transformations with companies like Whirlpool, GM OnStar, Steelcase, ZF/TRW and Ericsson.
