

As the COVID-19 pandemic continues, we want our members and friends to know that we are all in this together, and PMI Buffalo is here to support you.

Our highest priority is to protect the health of our volunteers, members and the people close to them; and maintain the highest level of professional service to our members and community stakeholders. We will continue to update you on our approach as information becomes available from the World Health Organization, Centers for Disease Control and local authorities.

Our hearts and thoughts go out to the people who have been affected by this unprecedented event and we appreciate the healthcare workers, local communities, and governments around the world who are on the front line working to contain this coronavirus

We would also like to provide you with Resources to assist you during this difficult time. If we can assist you in any way, please feel to reach out to us.
